

AN HF SINCLAIR BRAND

YOUR INNOVATION PARTNER FOR EV LUBRICANTS

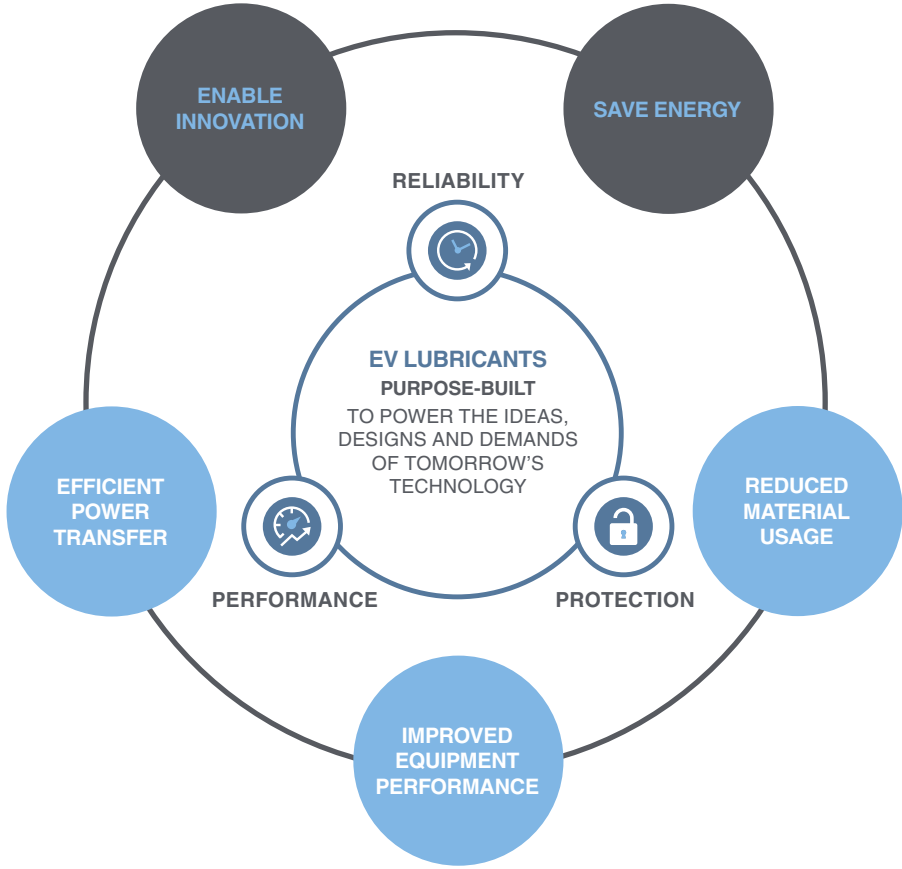

WHERE PERFORMANCE MEETS THE FUTURE

The power to make a difference where it counts, that's what our range of Electric Vehicle (EV) specific lubricant and grease technologies represents. We reliably supply our partners today with solutions for EVs, based on our existing high-performance technologies.

And as the industry undergoes a profound engineering and design shift – probably the biggest in its history – we’ll be right beside you, helping to drive EV technology forward and positioning you at the forefront of the revolution. Our drive to continuously innovate has led us to launch a line of purpose-built lubricant solutions for EVs – Petro-Canada Lubricants **EVR™**

AND WHAT DOES THAT MEAN FOR OUR CUSTOMERS?

POWER TODAY. POWER TOMORROW. POWER4EVR.™

We are a leading innovation partner for high-performance lubricants. Join us in advancing the performance, reliability and protection of tomorrow’s EV technology.

Talk to us about our commitment to high performance EV technology, contact us at power4evr@hfsinclair.com
