

# PARTNERING WITH **FIRST NATIONS COMMUNITIES.**

It is very important for Petro-Canada Lubricants, an HF Sinclair brand, to partner with many of the First Nations communities across Canada as we support the mining sector and our mining customers with lubricants, greases, expertise and solutions.

To show some of the depth of our involvement with those communities, we've gathered testimonials. These testimonials help explain our partnerships together and how they benefit our customers to accomplish their goals.

First, please see below testimonial from work in Ontario:

**“** Naicatchewenin First Nation through two of their companies, Onikaajigan Construction LP and Anokiigamig Construction LP, is proud to be a partner with Petro-Canada Lubricants. Both of these companies have been partners with PCL since 2015. The main commercial activity of our joint venture is to supply New Gold mining operation located in Rainy River, ON.

Since 2015, we generated significant cost savings at New Gold by adapting the lubricants used at the pit and at the processing plant. We work in constant collaboration with New Gold - with their maintenance, supply chain and management personnel - to make sure the day-to-day operations are accomplished successfully and that we are aligned with their long-term objectives.

Naicatchewenin First Nation is very honoured to be in partnership with Petro-Canada Lubricants, and to continue delivering excellence in service at New Gold in Rainy River.

– Dean Bethune, General Partner  
of Anokiigamig Construction LP,  
Naicatchewenin First Nation

AN HF SINCLAIR BRAND

Canadian Council for  
**ABORIGINAL  
BUSINESS**

We are very proud to be members of the Canadian Council for Aboriginal Business. These partnerships are extremely important to our business and to our customers and we are honored to be able to continue our membership with this community.

And here is another testimonial from one of our partnerships in Ontario:

**“ Mattagami First Nation and Petro-Canada Lubricants became partners in 2020. We had a common goal – to secure a lubricant supply agreement with IAMGOLD for the Cote Gold project.**

**This mining project is one of the largest open pit projects in Northern Ontario. All the local lubricants suppliers are determined to be the selected supplier for this project. Mattagami First Nations worked with Petro-Canada Lubricants to promote the brand at this new mining project at Côté Gold.**

**We worked as partners to demonstrate to IAMGOLD the value and the positive impact of our program for the local community and the Côté Gold Mine site. We made official our supply agreement with IAMGOLD in 2022 and continue supply with them today. We are proud to continue our partnership and support for our customer.**

– Tim Harvey, CEO, Mattagami AKI, Mattagami First Nation

At Petro-Canada Lubricants, we take a comprehensive view of all our customers' operational and enterprise needs and provide unparalleled access to our technical expertise and industry knowledge to make their business better and their lives easier. When you work with a customer-focused lubricants partner, you can be confident that we'll go above and beyond to make your life easier and your business more successful.

Sustainability and the environment are important to us. Our innovative products deliver efficiencies, such as extended drains and reduced energy consumption that benefit your business and the environment. Longer lasting lubricants mean less oil consumption. And better fuel efficiency both reduces consumption and emissions.

Behind the exceptional performance of our products is a world of expertise and support to provide deeper knowledge of your operations and the widest range of services. The knowledge, solutions, and tools you need are here to help you boost productivity, increase efficiency, reduce costs, and cut downtime.

Petro-Canada Lubricants is committed to delivering innovative solutions that provide value and keep businesses moving.
