*For UTTO applications only. Do not use in engine application where Super Tractor Oil Universal (STOU) is recommended.

**Certain tractor models have common hydraulic reservoirs and transmission systems that work together with the same fluid. It is always best to follow the OEM recommendations to ensure you are using the right fluid in the tractor.

Note: These are general guidelines containing select Petro-Canada Lubricants products that may be most suitable for your equipment. **You should always follow your OEM recommendations.** Please contact a Petro-Canada Lubricants representative or visit our website, lubricants.petro-canada.com for more information and our complete product listing.
